Dear VIG's,

It's with great joy that we celebrate the holidays in 2010. It has been an exceptionally exciting year for us. This year our overall store count has grown to 94 locations, which included new store openings, acquisitions and our first 12 Sears shop-in-stores; the first of their kind in the U.S market. We continue to improve the efficiency of our stores, catalog and internet operations with continued focus on improving your customer experience. Thanks to you, we celebrated our 42nd anniversary this year and look forward to many more birthdays to come.

We want to thank you again for your loyalty. We never take your business for granted and we hope that we continue to meet all of your expectations in the future.

Kind regards,

*John X Watson*

#### WATTS PICK TO HIT

*Diablo Octane Driver*  
This 46-inch titanium driver's lightweight and strong clubhead helps generate more impact power.

**NEW**

#### a. DIABLO OCTANE driver #26752

**\$299<sup>99</sup>** each

**Forged Composite™** is a new material used in the crown that's **lighter, stronger than titanium**. Lighter clubhead enables a longer club configuration for faster head speed and ball speed for an average of 8 extra yards over Diablo Edge™. Hyperbolic Face Technology™ precisely controls thickness of the face for consistently high balls speeds for longer distance. Project X™ Shaft is the ideal complement to maximize performance and feel. { 9.5°, 10.5°, 11.5° & 13.5° } **RH Sr** { 10.5° & 11.5° } **LH** Women's #26756 { 10.5°, 11.5° & 13.5° } **RH W** { 11.5° } **LH W**

#### Diablo Octane Fairway Wood

STANDARD MODELS HAVE LARGER FOOTPRINTS WITH A HIGHER MOI AND A DEEP CG FOR BETTER PLAYABILITY AND HIGHER TRAJECTORIES

**NEW**

#### c. DIABLO OCTANE fairway wood #26754

**\$199<sup>99</sup>** each

**Aggressive VFT™ Technology** increases the size of the sweet spot and generates hotter ball speeds for longer distance. Standard models have larger footprints with a higher MOI and a deep CG for better playability and higher trajectories. Tour models inspire confidence at address and are highly workable with low, penetrating trajectories. Stainless Steel clubhead is heat treated to enhance strength and produces a pleasing, resonant sound at impact. { 3, 4, 5, 7 & 9 } **RH Sr** { 3 & 5 } **LH** Women's #26757 { 3, 4, 5, 7 & 9 } **RH W** { 3 & 5 } **LH W**
