

BACKSTRYKE

Backstryke

VISIBLE FACE ALIGNMENT ALLOWS YOU TO CLEARLY SEE IF THE FACE IS SQUARE TO THE TARGET LINE WITHOUT THE SHAFT IMPEDING YOUR LINE OF SIGHT FOR SIGNIFICANTLY BETTER ACCURACY. FORWARD PRESS STABILIZATION PROMOTES AN ASCENDING STROKE INTO THE BALL, IMPARTING TOPSPIN FASTER FOR TRUER ROLL. STROKE BALANCE PROMOTES A FLUID, STABLE STROKE PATH THAT'S MORE CONSISTENT, ACCURATE AND LEADS TO BETTER DISTANCE CONTROL.

PING®

NEW

a. K15
driver #25792

\$299⁰⁰ each

[a]

The elongated head design of the K15 combines with an external weight pad to position the CG for higher launching, longer carry drives • Straight Flight Technology • Promotes natural club head rotation by concentrating approximately 10% of the head mass towards the heel • A larger face increases forgiveness and ball velocity for greater distance and accuracy. { 9.5°, 10.5° & 12° } **RH LH Sr**

Straight Flight Technology [SF Tec]

SF Tec provides substantial heel weighting to help square the face for exceptionally straight drives tee shot after tee shot

NEW

b. K15
fairway wood #25793

\$199⁰⁰ each

[b]

Engineered with Straight Flight Technology (SFT), the K15 fairway woods feature a large, elongated head which significantly increases the MOI • Together with an external weight pad, this new design ensures natural club head rotation to improve accuracy and distance • Its low profile design lowers the CG for improved performance while inspiring confidence to launch the ball higher. { 3, 5 & 7 } **RH LH Sr**

NEW

c. K15
iron/hybrid set #25796

A blended set comprised of multi-metal irons and higher launching hybrids, the K15 iron/hybrid set is designed for golfers who benefit from a maximum forgiveness design • Titanium face and steel body of the K15 iron creates a higher MOI for greater accuracy and consistent distance results across the club face • Wide-soled irons feature a low and deep CG position to promote higher trajectories • Two stainless steel hybrids offer options to replace a traditional 5 or 6 iron • 3 and 4 hybrids ensure higher launching shots for slower swing speed golfers • Each hybrid is engineered with patent-pending technology which reduces spin and increases launch • Irons available 5-9, PW, UW, SW & LW • Hybrids available 3H, 4H, 5H & 6H { 4H, 5H & 6-PW } **RH LH Sr**

4H, 5H & 6-PW

\$899.00 [stl]

\$962.50 [gra]

WATTS PICK TO HIT
K15 IRON/HYBRID SET

This blended set of multi-metal, wide-soled irons and high-launching steel hybrids maximizes forgiveness.

[c]

EXACT SPECIFICATIONS IN JUST 48 HOURS An important part of the custom-fitting process is matching the proper iron design to your game. From multi-metal, maximum forgiveness technology to player-style models, PING Irons provide a variety of design features to help lower your scores. Surprisingly, custom-fit PING clubs don't cost any more or take any longer to build.

Once an order has been placed through Edwin Watts Golf, the production process allows us to ship your clubs, built to your exact specifications, usually in just 48 hours.

WATTS PICK TO HIT

G15 DRIVER

Elongated 460cc titanium clubhead maximizes forgiveness distance and accuracy.

a. G15 driver #23140

\$299.00 each

External sole weight pad positions CG to produce a high launch angle and low spin rate ■ 460 cc titanium ■ Larger face design generates higher ball speed ■ NEW TFC 149D high balance point shaft (L, Soft R, R & S Flexes) or Aldila Serrano 60 (R & S) { 9°, 10.5°, 12° & 13.5° } **RH LH Sr**
